

# THE DRAGON ILLUSION

1. using the dragon template, accurately cut out the dragon on the solid lines, being careful to include the tabs.
2. score the fold (dotted/dashed) lines and notice which folds are valley folds and which are mountain folds.
3. Tape together your model, following the directions carefully.

## FILMING THE DRAGON

4. using a Flip camera, film your dragon from left to right and up and down a few times to show the illusion.
5. Don't worry about the audio, we will be deleting that.
6. Download the video footage to imovie.

## RESEARCHING THE DRAGON AND

## WRITING THE SCRIPT

7. Research the dragon illusion and how the illusion works. Take notes.
8. Check multiple sources and record the sources so that you can include them in your credits.
9. With the information you have found, write a script to use as a narration for your movie that explains the illusion.

# EDITING THE MOVIE

10. in imovie, go to FILE – create new event – label it dragon illusion
11. Bring your movie clips into that event.
12. put together your clips, using a title, transitions, credits and a narration track in the timeline that includes your explanation of the illusion.
13. on the dragon clips, highlight them, go to modify – detach audio (it will not interfere with your narration).
14. you may add music underneath the narration as long as it does not detract from the narration.
15. Refer to the Dragon Illusion Rubric for how your movie will be graded.

# TURNING IN THE MOVIE

16. when you have completed your movie, go to file – share to a file.
17. Label the movie with the period, your name and the title:
  - a. Example: 1EimerDragonIllusion
18. upload the exported movie to your google drive and share with [deimer@campbellusd.org](mailto:deimer@campbellusd.org)
19. save the movie in your drive, this will be added to your portfolio in the future.
