

Portfolio Website for **type in your name**

Creating An Assignment Page

Step 1 - Log in to the Weebly for education website with your user-name and password (Get these from your teacher). Create a subdomain of weebly, this subdomain should be the same as your username or a form of your name and mms. **This is the web address for your website, type it in here and add a link:**

Step 2 -Creating your Homepage. You may choose the theme of your choice. On your homepage, the title should be: MY PORTFOLIO and should have your first and last name. *This portfolio should be a professional example of how you will preview your work to others, so keep it as professional, as well as personal.* On that page you should have:

1. an article - "About the Author" - a paragraph introducing yourself to the public. Include what experience you have had in video before taking this class, why you decided to take the class, any personal information, etc.
2. A Photo of you or one that represents you.
3. When you are done, click "Publish". Preview your site and proofread your paragraph to make sure there are no spelling errors. Then **take a screen-shot of your website and place it here:**
